

## Final Mile · Middle Mile · Any Mile

**We handle the details with care so that your delivery gets where it needs to be when it needs to be there.**

A company's logistics strategy can be its greatest asset or its greatest headache. With over three decades of experience, Pillow Logistics Group can make sure your logistics plan saves time, saves money, and enhances your end user's experience. We make you look good by doing what we do best—taking deliveries from point A to point B with accuracy, efficiency, and care.

**We work with a full spectrum of industries and have specialized knowledge in a range of sectors.**

We realize that each industry has its own urgent concerns. We are problem solvers and work to make sure their specific needs are met.

We can get parts to an HVAC company same-day on-site to make sure air conditioning is running in a heat wave. We can adjust our route to make sure a hospital is supplied with baby formula. We have cold storage equipment to make sure vaccines are delivered properly preserved. We get birthday gifts ordered online to their recipients on time for their big day.

# MASTERING THE FINAL MILE – DELIVERING TO THE END USER WITH EFFICIENCY AND ACCURACY

We know at the end of every route is a person. We keep this in mind as we develop our routes and optimize our delivery services.

- Extended small parcel shipping network
- On-demand and routed delivery available
- Pool distribution offered for efficient shipping

# FILLING IN THE GAPS WITH MIDDLE MILE – FLEXIBILITY AVAILABLE FOR EVERCHANGING LOGISTICS NEEDS

There is more than one way to get where you need to go. With a team of experienced logistics professionals, we can make every route count. There is no weak link in your supply chain when you leave logistics to the Pillow Logistics Group.

- Working within the supply chain to keep packages moving
- Vertical integration
- Process, hold, store, and deliver

# ADMINISTRATION AND EXPERTISE TO MAKE YOUR BUSINESS STRONGER

Every detail of our logistics strategy is taken care of from the moment you consult with us to the moment the shipment is delivered.

- Customer service that is always on call
- Well-maintained fleet of vehicles with experienced and dedicated drivers
- Cutting-edge technology to track and route

# PROTECTING YOUR BOTTOMLINE WITH INTEGRITY

We know how to create and execute a logistics plan that will keep costs in line while protecting the end user's experience.

- Planning efficiencies to reduce fuel and transportation costs
- Providing you with risk reduction and minimized overhead
- Utilize our services to add to the in-house fleet OR receive full-service logistics management

# WE ARE WHERE YOU NEED US TO BE

**We have built a stronghold over generations and will use our resources and our reach to make sure your business runs smoothly.**

- 100+ Drivers Delivering within a 6-state radius
- Warehouses in Indianapolis and Louisville
- Middle – Final Mile capabilities applicable across these metro areas and greater regions
